ALPHA 800 (SC)

Product Name: **ALPHA 800(SC)**

Data sheet 5000-95
September 2018

Product Description: Alpha 800 (SC) is a temporary cold process asphalt patching material. It is designed to provide an economical yet effective temporary patch for holes in asphalt roads. Alpha 800 (SC) is not designed for areas which are exposed to foot traffic, due to its prolonged tacky properties.

Coverage: Each 60 lb. bag of Alpha 800 (SC) will fill an area of approximately 2.4 square feet at a 2" thickness.

Application: For best results, clean all loose dirt and debris from in and around the hole. Fill holes in 2" lifts, thoroughly compacting each lift. Repaired areas should be filled approximately 1-2" above the surrounding surface to allow for further compaction. Alpha 800 (SC) is designed as a temporary patch and will remain soft and tacky for an extended period of time.

Uses: Temporary asphalt patch of:

- Potholes
- Utility cuts
- Trenches

Advantages:

- Convenient 60 lb. bags
- Economical
- Saves labor
- Cleaner, easier handling

Packaging: Alpha 800 (SC) is available in 60 lb. plastic bags. They are shipped 50 bags per pallet.

Technical Data: Alpha 800 (SC) meets the requirements of section 203 Green Book - Standard Specifications for Public Works and section 93 - Standard Specifications for Caltrans.

Limitations:

- Do not install in water
- Should be kept warm prior to installation

Warranty: The technical information and usage statements are based on our best knowledge. The contents of this specification sheet are presented for informational purposes only and do not constitute responsibility for their use. The manufacturer will replace only that material which is proven defective due to quality of the components of the manufacturing process.

CAUTION: Avoid direct contact where possible and wash exposed skin areas promptly. If any material gets into the eyes, rinse immediately and repeatedly with water and get prompt medical attention. See Safety Data Sheet.
